the bestselling author of the death of money and currency wars reveals the global elites dark effort to hide a coming catastrophe from investors in the road to ruin now a national bestseller a drumbeat is sounding among the global elites the signs of a worldwide financial meltdown are unmistakable this time the elites have an audacious plan to protect themselves from the fallout hoarding cash now and locking down the global financial system when a crisis hits since 2014 international monetary agencies have been issuing warnings to a small group of finance ministers banks and private equity funds the u s government s cowardly choices not to prosecute j p morgan and its ilk and to bloat the economy with a 4 trillion injection of easy credit are driving us headlong toward a cliff as rickards shows in this frightening meticulously researched book governments around the world have no compunction about conspiring against their citizens they will have stockpiled hard assets when stock exchanges are closed atms shut down money market funds frozen asset managers instructed not to sell securities negative interest rates imposed and cash withdrawals denied if you want to plan for the risks ahead you will need rickards s cutting edge synthesis of behavioral economics history and complexity theory it s a guidebook to thinking smarter acting faster and living with the comfort ing knowledge that your wealth is secure the global elites don t want this book to exist their plan to herd us like sheep to the slaughter when a global crisis erupts and of course to maintain their wealth works only if we remain complacent and unaware thanks to the road to ruin we don t need to be if you are curious about what the financial götterdämmerung might look like you ve certainly come to the right place rickards believes and provides tantalizing snippets of private conversations with those who dwell in the very eye in the pyramid that the current world monetary and financial system is on the verge of insolvency and that the world financial elites already have a successor system for which they are laying the groundwork ralph benko forbes

this book discusses the role played by powerful global institutions such as the imf the world bank the world trade organisation multinational corporations and the international credit rating agencies in keeping africa marginalised in the world economy the book focuses on the intrusive roles of these institutions as enablers and beneficiaries of capital outflows and financial subordination in africa diverging from the official narrative that touts china and the other emerging economies as global reformers that are poised to partner africa in its fight against financial subjugation the book instead argues that like the western powers the emerging economies are benefiting prodigiously from a rigged global financial system that keeps africa as a net creditor to the

rest of the world the book draws its theoretical framework from the repressed heterodox theories including dependency core periphery world systems and marxist theories as well as the decolonial approach it concludes with a call for a decolonial african agency that should champion an epistemic rebellion against the neo liberal and neo classic economic traditions that have been historically deployed to justify africa s subordinated position in the global economic governance this book comes at moment in time when africa is ready to become a rule maker not a rule taker the analysis dr moyo presents having been in the front line of public policy and international negotiations demonstrate the need for africa to re write the rules to foster our own transformation jason rosario braganza executive director african forum and network on debt and development afrodad

africa provides a unique perspective to understand today s global crises this book explores how africa positioned historically in a subaltern role due to colonialism offers a critical lens on the shifting dynamics of the modern world system the book presents how africa s continued struggles against racism colonialism and economic exploitation make it a powerful site for rethinking the global order addressing ecological ideological financial health and systemic crises the book demonstrates how problems in africa are intrinsically linked to global issues it argues that the so called decolonization after 1945 was superficial maintaining global hierarchies that marginalize africa with insights from thinkers like nkrumah and rodney it challenges the entrenched structures of racial capitalism and offers new pathways for genuine global equity and justice this book will appeal to students scholars and researchers of international relations economics political science and related disciplines as well as policy makers interested in a better understanding of the ongoing global power shift and africa s challenges and position within the modern world system

about social elites in various western countries

in recent decades emerging challenges such as increased digitalization of social lives and the ongoing processes of border externalization and internalization have prompted scholars and civil societies to question the ways in which people view frame and experience migration and draw attention to emerging forms of resistance and mobility justice this timely encyclopedia engages with critical epistemologies and practices to provide a comprehensive examination of the field of global migration activism and cultural production

this book discusses a core question in many fields of the social sciences namely how to create share and adopt new knowledge it creates an original space for conversation between two lines of research that have developed largely in parallel for a long time social network theory and the geography of knowledge this book considers that relational thinking has become increasingly important for scholars to capture societal outcomes by studying social

relations and networks whereas the role of place space and spatial scales has been somewhat neglected outside an emergent geography of knowledge the individual contributions help integrate network arguments of connectivity geographical arguments of contiguity and contextuality into a more comprehensive understanding of the ways in which people and organizations are constrained by and make use of space and networks for learning and innovation experts in the fields of geography sociology economics political science psychology management and organizational studies develop conceptual models and propose empirical research that illustrates the ways in which networks and geography play together in processes of innovation learning leadership and power this book is open access under a cc by 4 0 license

this book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now regularly referred to as emerging regions these are latin america and the caribbean east central europe and the former soviet union and east asia this book breaks new ground in three areas first of all it develops a critique of the use of the term emerging regions for geographers and social scientists and relates this to world systems theory secondly it explores the development trajectories and challenges of countries in this so called emerging world countries that will be crucial to the evolution of the world economy in the twenty first century thirdly it compares and contrasts the pathways of both economic and political change in the three world regions under focus this is a unique approach in terms of books published in both geography and the social sciences within the context of the three world regions the book combines historical and contemporary analysis of the evolving world system in these regions we are concerned to understand the historical expansion and extension of capitalism and how its contemporary forms of production exchange and regulation are evolving the authors believe that at the present time these processes have produced alternative capitalisms economic and associated developments which while assuredly capitalist differ in various ways from those typical of the capitalist west or core economies of north america and western europe
